PRIMARY SCHOOL

INTERNET SAFETY WORKSHOP

WHAT OUR AIMS ARE TODAY

- 1. To show you the way children are using the internet
- 2. To show you the pitfalls of the internet
- 3. To support you with keeping your child safe

QUESTION 1: LIST ALL THE WAYS CHILDREN CAN GET ONTO THE INTERNET.

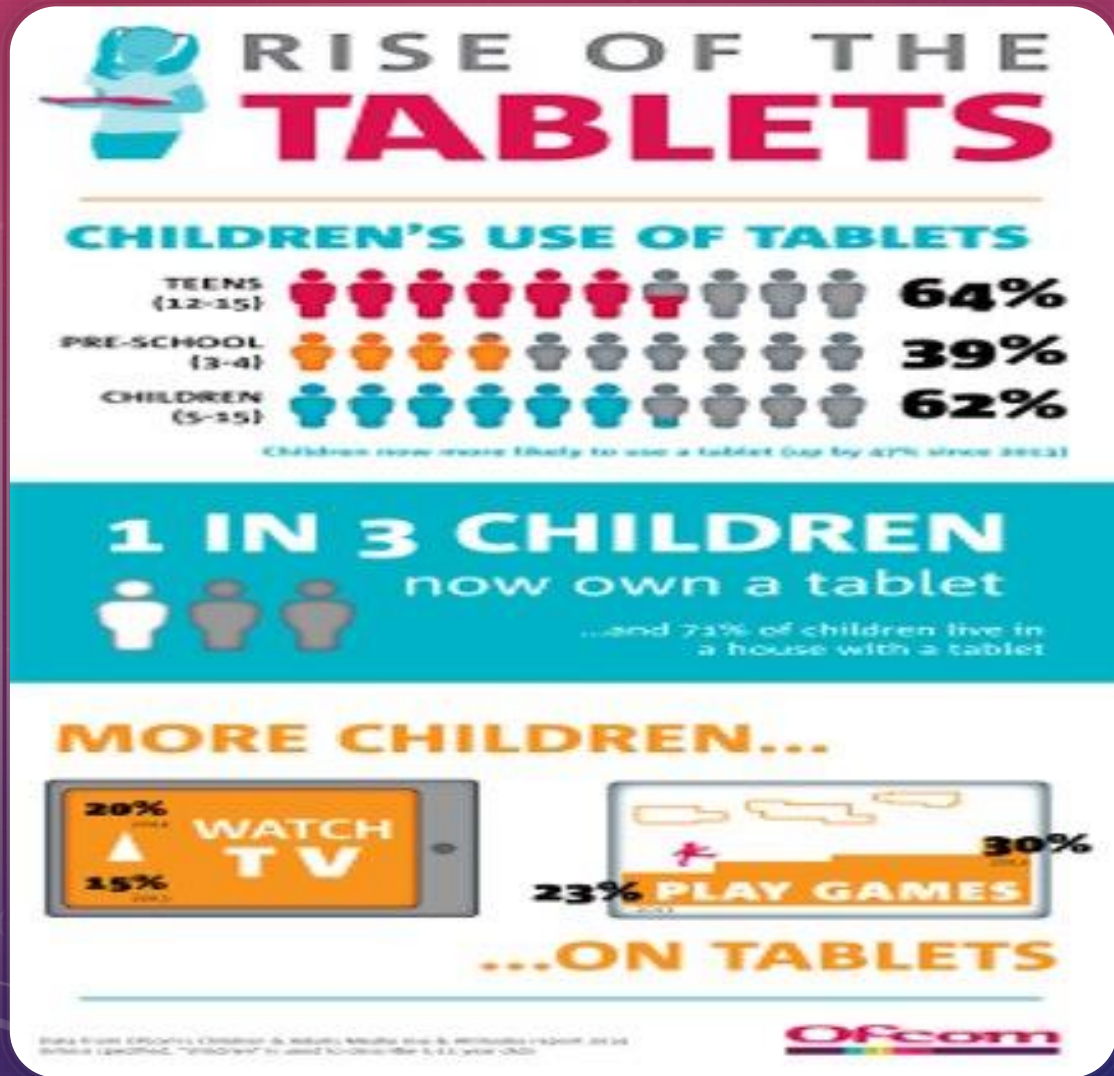

You have just 1 minute to think of all the ways children can access the internet.

HOW CHILDREN CAN ACCESS THE INTERNET

- These are statistics for the most commonly used devices which enable children access to the internet.

FACTS ABOUT INTERNET USAGE

Just look at how many children own tablets.

HOW DO WE KEEP YOUR CHILD SAFE ON-LINE

Stay safe online

Remember the 5 SMART rules when using the internet and mobile phones.

S

SAFE: Keep safe by being careful not to give out personal information – such as your full name, email address, phone number, home address, photos or school name – to people you are chatting with online.

M

MEET: Meeting someone you have only been in touch with online can be dangerous. Only do so with your parents' or carers' permission and even then only when they can be present.

A

ACCEPTING: Accepting emails, IM messages, or opening files, pictures or texts from people you don't know or trust can lead to problems – they may contain viruses or nasty messages!

R

RELIABLE: Information you find on the internet may not be true, or someone online may be lying about who they are. Make sure you check information before you believe it.

T

TELL: Tell your parent, carer or a trusted adult if someone or something makes you feel uncomfortable or worried, or if you or someone you know is being bullied online.

Internet Safety Week

Safe searches on the Internet

* At Thornton, every child is provided with an individual login for both the desktop computers and the iPads.

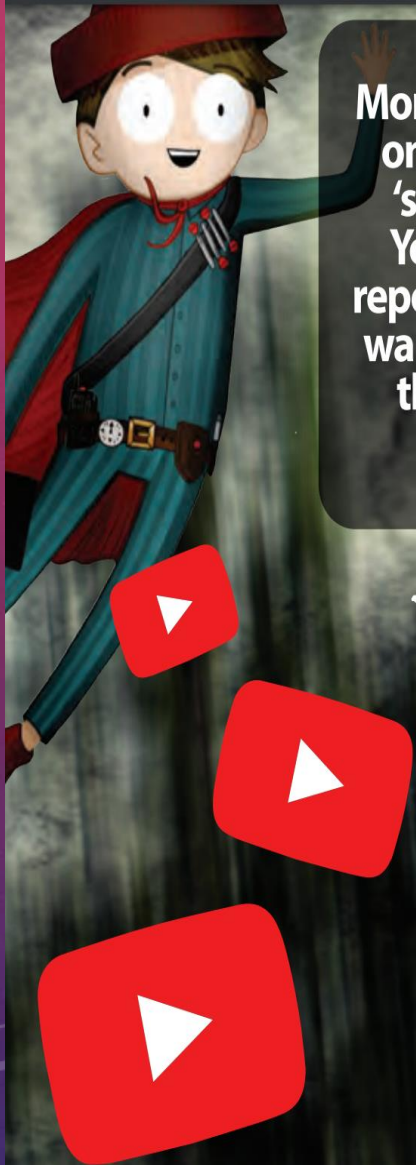

RECENT ON-LINE DANGERS

Momo is a sinister 'challenge' that has been around for once again has come to the attention of schools and 'suicide killer game', Momo has been heavily linked YouTube, and most recently (and most worryingly).. reportedly sends graphic violent images, and asks use waking up at random hours and has even been associated that the 'Momo' figure was originally created as a sc Tokyo and unrelated to the 'Momo' challenge v

What parents need to know about

MOMO

TELL THEM IT'S NOT REAL

Just like any urban legend or horror story, the concept can be quite frightening and distressing for young people. Whilst this may seem obvious, it's important for you to reiterate to your child that Momo is not a real person and cannot directly harm them! Also, tell your child to not go openly searching for this content online as it may only cause more distress.

BE PRESENT

It's important for you, as a parent or carer, to be present while your children are online. This will give you a greater understanding of what they are doing on their devices, as well as providing you with the opportunity to discuss, support and stop certain activities that your child may be involved in. As the nature of each task become progressively worse it's also important to recognise any changes in your child's behaviour.

TALK REGULARLY WITH YOUR CHILD

As well as monitoring your child's activity, it's important for you discuss it with them too. Not only will this give you an understanding of their online actions, but those honest and frequent conversations will encourage your child to feel confident to discuss issues and concerns they may have related to the online world.

DEVICE SETTINGS & PARENTAL CONTROLS

Ensure that you set up parental controls for your devices at home. This will help to restrict the types of content that your child can view, as well as help you to monitor their activity. In addition to this, it's vital that you are aware of your device and account settings to ensure your child's utmost safety. For example, on YouTube you can turn off 'suggested auto-play' on videos to stop your child from viewing content that they have not directly selected.

PEER PRESSURE

Trends and viral challenges can be tempting for children to take part in; no matter how dangerous or scary they seem. Make sure you talk to your child about how they shouldn't succumb to peer pressure and do anything they are not comfortable with, online or offline. If they are unsure, encourage them to talk to you or another trusted adult.

REAL OR HOAX?

As a parent it is natural to feel worried about certain things you see online that may be harmful to your child. However, not everything you see online is true. Check the validity of the source and be mindful of what you share as it may only cause more worry.

REPORT & BLOCK

You can't always rely on parental controls to block distressing or harmful material. People find ways around a platform's algorithm in order to share and promote this type of material. Due to this, we advise that you flag and report any material you deem to be inappropriate or harmful as soon as you come across it. You should also block the account/content to prevent your child from viewing it. Also encourage your child to record/screenshot any content they feel could be malicious to provide evidence in order to escalate the issue to the appropriate channels.

FURTHER SUPPORT

Speak to the safeguarding lead within your child's school should you have any concerns regarding your child's online activity or malicious content that could affect them.

If your child sees something distressing, it is important that they know where to go to seek help and who their trusted adults are. They could also contact Childline where a trained counsellor will listen to anything that's worrying them.

The Childline phone number is
0800 1111.

'Fortnite - Battle Royale.' is a free to play section of the game 'Fortnite.' The game sees 100 players dropped on to an island from a 'battle bus,' where they have to compete until one survivor remains. The last remaining player on the island wins the game. Players have to find hidden items, such as weapons, to help them survive longer in the game. To make the game more challenging, there is an added twist called 'the storm' which reduces the size of the island from the start of gameplay, bringing the players closer together in proximity. The game is available on PC, PlayStation 4, Xbox One, Mac and iOS.

What parents need to know about **FORTNITE: BATTLE ROYALE**

MICROTRANSACTIONS

Newly featured items are released daily and are only available to purchase within 24 hours of their release.

These are cosmetic items, called 'skins,' 'gliders' and 'emotes,' which change the characters' appearance, but do not improve the game play. Once purchased, the player has full use of these in the future. The designs are attractive for players to purchase and even celebrities are endorsing them. Also available to purchase in the game is a 'Battle Pass.' When a new 'Battle Pass' is released, users can take part in a series of challenges, receiving more rewards (cosmetics) by progressing through different tiers. Whichever rewards they achieve can then be used in the game.

IT CAN BE ADDICTIVE

Games can last around 20 minutes but this varies according to the game. Children may feel angry if they lose the game and will want to continue playing until they achieve their desired result. The competitive nature of the game may make it difficult for them to stop playing halfway through as their position in the game could be affected.

HACKER ATTACKS

News site Forbes stated that it had seen "dozens" of online reports from people who said their accounts had been compromised by hackers, who had gained access to user's accounts in the game and accrued hundreds of pounds in fraudulent charges.

TALKING TO STRANGERS DURING SQUAD MODE

Interacting with other players in the game is part of the fun as players can communicate with their friends and other players in the game. Players will benefit from wearing headphones to hear footsteps from other players trying to compromise their game. Wearing headphones makes it difficult for parents to hear what exactly is being said and children may be exposed to inappropriate language. Fortnite includes really good reporting features for players either cheating or misbehaving, and works towards having one of the best online gaming communities.

NO PROOF OF AGE REQUIRED

Signing up to the game is relatively simple. Users have the option to log in with either their Facebook or Google accounts or their email address. When signing up with an email address, no proof of age is required. If your child is under the age of 12, it is important to check whether your child has the game downloaded.

TALKING TO STRANGERS DURING SQUAD MODE

There are many accounts on Facebook and Twitter which claim to give away free money (known as 'V bucks') for games which will be transferred to their Xbox Live or PSN cards. Any giveaway promotion from Fortnite will be in the game. It is important to check the authenticity of these accounts before giving away personal information in order to claim 'V bucks.' The websites or accounts may ask you to share your account name and password in order to claim the money; if these offers seem too good to be true, they usually are.

AGE RESTRICTIONS

Top Tips for Parents

LIMIT GAME TIME

Parents can use parental controls on Xbox and PC to limit the time a child is playing games on these devices. Be aware that the game is available on iOS and will soon be available on all mobiles. With this in mind, it is worth having a conversation with your child to discuss and agree how long you would like them to play the games for. Even though the games last around 20 minutes, it may be difficult to take them away from a game mid play. It may be worth imposing a limit on the amount of matches they play rather than a time limit.

PREVENT YOUR CHILD FROM TALKING TO STRANGERS

There is an option to turn off the voice chat feature, which means your child wouldn't be able to talk to anybody, including their friends. However, they would still be able to use the in-app chat and hear other people's conversations. To turn off voice chat, open the Settings menu in the top right of the main Fortnite page, then click on the cog icon. Open the Audio tab at the top of the screen. From there, you can turn off voice chat.

LOOK OUT FOR VBUCK SCAMS

It is important that your children are aware of the scams that they may come across online in association with the game. Open up conversation with them about scams and how they should never share their username or password with people in order to gain anything for the game.

RESTRICT PAYMENT METHODS

'Fortnite: Battle Royale' is a free to play game, but there are still options to make additional purchases. If you do not want your child to make payments, ensure your card is not associated with their account. If you are happy for your child to make payments in the game, but want to restrict spending, we suggest using a paysafecard, or a games console gift card. These can be purchased in specific amounts, which will allow you to restrict the amount your child spends and removes the need for a credit/debit card to be used with their account.

SHOW THEM HOW TO MAKE A REPORT

If your child believes a player is playing or talking inappropriately, you should advise them to report them. To report a player, you can use the in-game feedback tool located in the Main Menu of the game. Additionally, you can report a player in-game when spectating them.

USE A STRONG PASSWORD

It may seem like a simple tip, but it is important that your child selects a strong password when creating an account, particularly if a credit/debit card is associated with the account. This will help reduce the risk of their account being hacked.
